FAILED
0

Scope: Mounted Express routes were tested end-to-end, including auth, service catalog, image upload, fuel delivery, towing, mechanic extra-work approval, order history, and negative auth/validation checks. The repository also contains `requestRoutes.js`, but `server/src/app.js` does not mount it; those declared legacy endpoints were probed and correctly returned 404 in this run.

Endpoint Status Matrix

#	Status	Test	Endpoint	Expected	Actual	Duration	Response summary
1	PASS	Health check	GET /api/health	200	200	46 ms	Roadside assistance API is running
2	PASS	List services	GET /api/services	200	200	7 ms	3 item(s)
3	PASS	Register validation failure	POST /api/auth/register	400	400	16 ms	role, name, phone and password are required
4	PASS	Register customer	POST /api/auth/register	201	201	165 ms	Registration successful
5	PASS	Login customer	POST /api/auth/login	200	200	153 ms	token, user
6	PASS	Login fuel provider	POST /api/auth/login	200	200	157 ms	token, user
7	PASS	Login towing provider	POST /api/auth/login	200	200	151 ms	token, user
8	PASS	Login mechanic provider	POST /api/auth/login	200	200	144 ms	token, user
9	PASS	Get current customer profile	GET /api/auth/me	200	200	13 ms	user

#	Status	Test	Endpoint	Expected	Actual	Duration	Response summary
10	PASS	Update customer profile	PATCH /api/auth/me	200	200	14 ms	token, user
11	PASS	Get provider profile	GET /api/auth/me	200	200	9 ms	user
12	PASS	Update provider profile	PATCH /api/auth/me	200	200	17 ms	token, user
13	PASS	Upload image validation failure	POST /api/uploads/image	400	400	2 ms	Image file is required
14	PASS	Upload image	POST /api/uploads/image	201	201	2760 ms	Upload successful
15	PASS	Provider cannot create customer order	POST /api/orders	403	403	2 ms	Forbidden
16	PASS	Create fuel order	POST /api/orders	201	201	50 ms	order.status=open
17	PASS	Update fuel provider location	PATCH /api/orders/provider/location	200	200	12 ms	Provider location updated
18	PASS	List open orders for fuel provider	GET /api/orders/open?latitude=31.5205&longitude=74.3588&radiusKm=300	200	200	15 ms	1 item(s)
19	PASS	Accept fuel order	POST /api/orders/{{fuelOrderId}}/accept	200	200	30 ms	Order accepted
20	PASS	Get customer active fuel order	GET /api/orders/mine/active	200	200	13 ms	order.status=assigned
21	PASS	Get fuel order details	GET /api/orders/{{fuelOrderId}}	200	200	13 ms	order.status=assigned
22	PASS	Mark fuel provider arrived	POST /api/orders/{{fuelOrderId}}/arrive	200	200	20 ms	Arrival marked
23	PASS	Start fuel order	POST /api/orders/{{fuelOrderId}}/start	200	200	21 ms	Order progress updated
24	PASS	Mark fuel delivered	POST /api/orders/{{fuelOrderId}}/fuel-delivered	200	200	16 ms	Fuel marked as delivered
25	PASS	Customer confirms fuel delivery	POST /api/orders/{{fuelOrderId}}/fuel-confirm	200	200	14 ms	Fuel delivery confirmed

#	Status	Test	Endpoint	Expected	Actual	Duration	Response summary
26	PASS	Customer confirms fuel payment	POST /api/orders/{fuelOrderId}/payment/customer-confirm	200	200	14 ms	Customer payment confirmation saved
27	PASS	Provider confirms fuel payment	POST /api/orders/{fuelOrderId}/payment/provider-confirm	200	200	12 ms	Provider payment confirmation saved
28	PASS	Create towing order	POST /api/orders	201	201	31 ms	order.status=open
29	PASS	Update towing provider location	PATCH /api/orders/provider/location	200	200	13 ms	Provider location updated
30	PASS	Accept towing order	POST /api/orders/{towingOrderId}/accept	200	200	29 ms	Order accepted
31	PASS	Mark towing provider arrived	POST /api/orders/{towingOrderId}/arrive	200	200	14 ms	Arrival marked
32	PASS	Start towing transit	POST /api/orders/{towingOrderId}/start	200	200	12 ms	Order progress updated
33	PASS	Raise towing SOS	POST /api/orders/{towingOrderId}/sos	200	200	12 ms	SOS alert recorded
34	PASS	Complete towing order	POST /api/orders/{towingOrderId}/complete	200	200	14 ms	Order completed
35	PASS	Customer confirms towing payment	POST /api/orders/{towingOrderId}/payment/customer-confirm	200	200	14 ms	Customer payment confirmation saved
36	PASS	Provider confirms towing payment	POST /api/orders/{towingOrderId}/payment/provider-confirm	200	200	16 ms	Provider payment confirmation saved
37	PASS	Create mechanic order	POST /api/orders	201	201	27 ms	order.status=open
38	PASS	Update mechanic provider location	PATCH /api/orders/provider/location	200	200	9 ms	Provider location updated
39	PASS	Accept mechanic order	POST /api/orders/{mechanicOrderId}/accept	200	200	18 ms	Order accepted
40	PASS	Mark mechanic arrived	POST /api/orders/{mechanicOrderId}/arrive	200	200	12 ms	Arrival marked

#	Status	Test	Endpoint	Expected	Actual	Duration	Response summary
41	PASS	Submit mechanic extra work request	POST /api/orders/{{mechanicOrderId}}/extra-work	201	201	19 ms	Extra work request submitted
42	PASS	Customer responds to extra work request	POST /api/orders/{{mechanicOrderId}}/extra-work/{{extraWorkRequestId}}/respond	200	200	24 ms	Extra work response submitted
43	PASS	Complete mechanic order	POST /api/orders/{{mechanicOrderId}}/complete	200	200	16 ms	Order completed
44	PASS	Customer confirms mechanic payment	POST /api/orders/{{mechanicOrderId}}/payment/customer-confirm	200	200	14 ms	Customer payment confirmation saved
45	PASS	Provider confirms mechanic payment	POST /api/orders/{{mechanicOrderId}}/payment/provider-confirm	200	200	19 ms	Provider payment confirmation saved
46	PASS	Customer order history	GET /api/orders/history	200	200	18 ms	3 item(s)
47	PASS	Provider order history	GET /api/orders/history	200	200	11 ms	1 item(s)
48	PASS	Unauthorized order history	GET /api/orders/history	401	401	2 ms	Missing bearer token
49	PASS	Invalid order id	GET /api/orders/not-a-valid-id	400	400	2 ms	Invalid order id
50	PASS	Legacy create request route is unmounted	POST /api/requests	404	404	3 ms	<!DOCTYPE html> <html lang="en"> <head> <meta charset="utf-8"> <title>Error</title> </head> <body> <pre>Cannot POST /api/requests</pre> </body> </html>
51	PASS	Legacy nearby requests route is unmounted	GET /api/requests/nearby?latitude=31.5204&longitude=74.3587&radiusKm=4	404	404	3 ms	<!DOCTYPE html> <html lang="en"> <head> <meta charset="utf-8"> <title>Error</title> </head> <body> <pre>Cannot GET /api/requests/nearby</pre> </body> </html>
52	PASS	Legacy request details route is unmounted	GET /api/requests/{{fakeObjectId}}	404	404	2 ms	<!DOCTYPE html> <html lang="en"> <head> <meta charset="utf-8"> <title>Error</title> </head> <body> <pre>Cannot GET /api/requests/64f00000000000000000000000000001</pre>

#	Status	Test	Endpoint	Expected	Actual	Duration	Response summary
53	PASS	Legacy create offer route is unmounted	POST /api/requests/offers	404	404	4 ms	<!DOCTYPE html> <html lang="en"> <head> <meta charset="utf-8"> <title>Error</title> </head> <body> <pre>Cannot POST /api/requests/offers</pre> </body> </html>
54	PASS	Legacy accept offer route is unmounted	POST /api/requests/offers/{{fakeObjectId}}/accept	404	404	5 ms	<!DOCTYPE html> <html lang="en"> <head> <meta charset="utf-8"> <title>Error</title> </head> <body> <pre>Cannot POST /api/requests/offers/64f00000000000000000000000000000</pre>
55	PASS	Legacy provider location route is unmounted	PATCH /api/requests/provider/location	404	404	2 ms	<!DOCTYPE html> <html lang="en"> <head> <meta charset="utf-8"> <title>Error</title> </head> <body> <pre>Cannot PATCH /api/requests/provider/location</pre> </bod>

Unmounted Legacy Request Routes

6 request-route checks returned 404. This is expected for the current app wiring because `requestRoutes.js` is imported nowhere in `server/src/app.js`.
